Healthy air –
a basic need

BONECO

healthy air

Tradition since 1956 a
Swiss Company

**Welcome
to more well-being**

Our Air Treatment Systems from BONECO healthy air stand for excellent quality, innovative solutions, expertise and an immeasurable wealth of experience going back over more than 50 years. As the leading manufacturer of high-quality Air Treatment Systems, we ensure one thing above all: healthy air!

6|7

When you feel really comfortable in a room, it could well be due to the professional air treatment provided by our effective brand product BONECO healthy air. That's because our appliances significantly improve room air quality and produce a pleasant indoor climate. The optimally humidified and cleaned room air not only has a positive effect on your own well-being, but also on health.

The following pages describe how you can breathe easily thanks to optimum Air Treatment Systems in indoor rooms.

For more information on the topic of "healthy air", visit: www.boneco.com/healthyair

A handwritten signature in black ink, appearing to read 'Jörg Frei'.

Jörg Frei
President of BONECO AG

The best technology for healthy air

Why room air must be professionally treated

With 20,000 breaths every day, we draw 12,000 liters of air into our lungs in order to produce oxygen. Air determines the room climate at home and in the office – and is often anything but ideal. Untreated air is not only dry, but frequently really "dirty", i.e. full of dust, pollen, cigarette smoke and bacteria.

We feel unwell if there is no moisture in air

"Thirsty air" needs an active water supply so that it does not extract the required moisture from our mucous membranes, our skin, plants and wooden objects. Especially in winter, excessively dry air is generated in heated rooms at our latitudes – because the colder it is, the less moisture air can absorb.

When outdoor temperatures hover around freezing point, relative humidity in indoor rooms therefore drops substantially – often by up to 20 percent! Optimally treated air should therefore not only be cleaned, but also ideally humidified. We regard a relative humidity of 40 to 60 percent as ideally humidified. This is also recommended by doctors.

The positive effect of professional air humidification and air purification

The highly efficient products from BONECO healthy air provide long-term protection for your health and the objects which you love. You feel better and more vital thanks to ideal air humidity:

- Fewer breathing problems
- Minimization of the risk of catching a cold
- Strengthening of the immune system
- Improved quality of life for allergy sufferers
- Reduction in dry skin, chapped lips and irritated eyes
- Reduced occurrence of fatigue and headaches
- Higher ability to concentrate and improved efficiency
- Improved sleep quality
- Reduction in the amount of dust
- Protection for wooden furniture and musical instruments
- Reduction in electrostatic charges

On the following pages you will find effective Air Treatment Systems which create a suitable climate for every need and every room situation. For the sake of your health.

Our Systems

HYBRID

Air Purifier

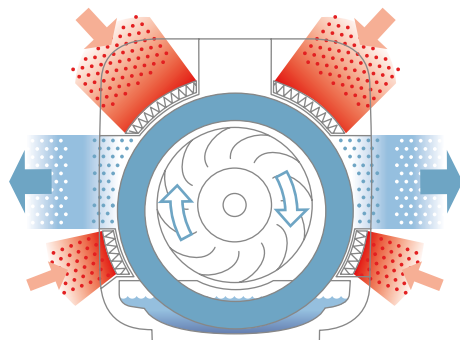

Humidifier

- Air Washer
- Ultrasonic
- Steamer
- Evaporator

HYBRID

Humidifier & Purifier

HYBRID Humidifier & Air Purifier

The HYBRID system provides both air humidification and air purification at the same time. The main components are the integrated HYBRID filter and the evaporator mat. A permanent pre-filter stops hair, pet dander, household dust and other larger contaminants. The downstream HYBRID filter consisting of an active carbon filter and a HEPA filter, filters almost all viruses, pollen and absorbs unpleasant odors. Last but not least, the evaporator mat is responsible for air humidification.

12|13

Features:

- Use as a Humidifier and/or an Air Purifier
- Positive effect on the consequences of dry air and allergies
- Ideal for families with children, allergy sufferers, city dwellers and smokers
- HYBRID filter included
- Suitable for all water hardness levels
- We recommend CalcOff for regular cleaning (see Accessories)
- Water quality maintenance with Ionic Silver Stick® (replace every season)

BONECO

Our all-rounder for large
offices and city apartments

H680
HYBRID Humidifier &
Purifier

LED touch display

*Dishwasher-safe evaporator mat
for cleaning*

User-friendly functions and handling

The H680 is an absolute all-rounder: Whether it is used as a Humidifier, Air Purifier or a combination of both – it satisfies all your needs. Its performance is one-of-a-kind in its appliance class. With an air-cleaning output of up to 190 m³/h (112 CFM) and a humidity output of up to 1000 g/h (6.34 gal/day), it humidifies and cleans the room air in large offices, city apartments, lofts or medical offices of up to 100 m² (1076 sq. ft). The innovative filter and humidification system provides air quality comparable to the clean air found in unspoiled nature.

14 | 15

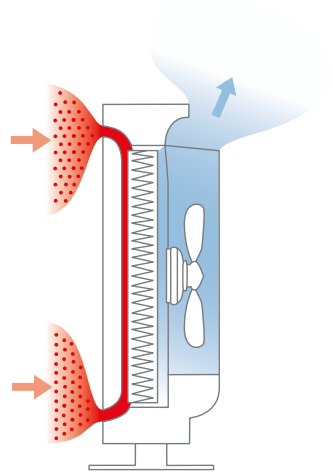

Suitable for rooms up to 100 m²
Humidity output up to 1000 g/h
Water capacity 10.0 Liter

Art. no. 40647

System Air Purifier

Air Purifier

A Purifier filters out ultrafine particles, thus providing clean and healthy room air. With our special filter package (HEPA and active carbon filters), the appliance removes allergens, pollen, viruses, dust, pet dander, dust mites, smoke and odors from the air.

16|17

Features:

- Filter system tailored to individual needs
- Ideal for families with children, allergy sufferers, city dwellers and smokers
- User-friendly functions
- Practical handling
- User-friendly operation

BONECO

Whether at home or work,
breathe easily again

NEW

**P500
Air Purifier**

Art. no. 41165

The Air Purifier P500 is a true treasure. Not only does it provide a feast for the eyes at home or work, it also purifies air efficiently in accordance with your preferences. Three specialized, multi-stage filters act as active protective shields and trap the smallest particles in the air. The P500 comes with filters that can be used individually to meet your specific needs: «ALLERGY» filter for people with allergies, «BABY» filter for families with children and «SMOG» filter for city residents and smokers. The P500 comes standard with the ALLERGY filter.

18 | 19

reddot design award
winner

Innovative filter package

Remote control for all functions

LED touch display with user-friendly functions: POWER MODE, SLEEP MODE, AUTO MODE

Suitable for rooms sizes up to 28 m²

Air flow up to 300 m³/h

Air-cleaning output up to 258 m³/h in CADR

BONECO

BONECO

**P400
Air Purifier**

The P400 Air Purifier gives you highly efficient air purification at home. Insert the filter that meets your needs: ALLERGY (standard equipment), BABY or SMOG. Whether at home or at the office: From a product family with an award-winning design language, the P400 will blend in effortlessly with your everyday surroundings – its quiet operation will never distract you. Enjoy fresh mountain air in every room.

Innovative filter package

LED touch display with simple functions

*Suitable for rooms up to 23 m²
Air flow up to 280 m³/h
Air-cleaning up to 230 m³/h in CADR*

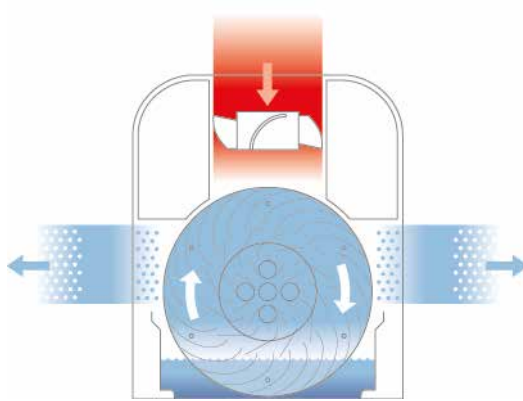

Art. no. 42515

System

Humidifier

Air Washer

Humidifier Air Washer

The Air Washers humidify and wash the air without the need for filter mats. Specially textured humidification discs turn in the water, which adds moisture to the air. The water acts as a natural filter, which washes the air of impurities (e.g. dust, pollen and particlebound odours). The self-regulating evaporation principle ensures the correct humidity in the room, as the air automatically draws as much moisture as it needs at any given moment.

22|23

Air Washers can be used all year round and are especially suited for allergy sufferers, due to their natural cleaning principle, without the need for additives.

Features:

- Positive effect on the consequences of dry air and allergies
- Ideal for families with children, allergy sufferers, city dwellers and smokers
- Wear-free – no consumables
- Suitable for all water hardness levels
- We recommend CalcOff for regular cleaning (see Accessories)
- Water quality maintenance with Ionic Silver Stick® (replace every season)

42%

BONECO

W490
Humidifier Air Washer

Art. no. 39660

This classically designed Air Washer is characterized by a modern touch display and extended functions. Thanks to the special cleaning mode, the humidifier disks and water base can be cleaned easily and conveniently.

During the decalcification phase only the humidifier discs rotate. The fan stays switched off so that no humidification takes place. The practical reminder function indicates when the device has to be cleaned either due to a lack of water, the need for cleaning or replacement of the Ionic Silver Stick®. Thanks to the integrated hygrosstat, the air humidity can be controlled at the "push of a button" for an ideal air climate. Two power modes, i.e. "day mode" and "night mode", as well as the display dimming function mean that the Air Washer is ideally suited for bedrooms.

Removable water tank for easy refills

Discs with scoop ribs and a honeycomb structure for optimum humidification

Water quality maintenance with Ionic Silver Stick®

Suitable for rooms up to 50 m² / 125 m³
Humidity output up to 300 g/h
Water capacity 7.0 Liter

45%

BONECO

**W2055D / W2055A
Humidifier Air Washers**

W2055D
Art. no. 39683

W2055A
Art. no. 39669

Thanks to pre-ionization, the air is efficiently freed from contaminants such as dust, pollen and particle-bound odors. Room air is therefore naturally cleaned just like rain does without chemical additives and is especially kind to allergy sufferers. An integrated fragrance container for essential oils also makes you feel better. The system has two operation modes and runs very quietly due to the special air flow.

26|27

W2055D design: digital version

- Programmable hygostat
- Maintenance reminders
- Automatic shut-off in case of empty water tank

W2055A design: analogue version

- With automatic shut-off

humidification and a container
for the use of fragrances

Water quality maintenance with
Ionic Silver Stick®

Suitable for rooms up to 50 m² / 125 m³
Humidity output up to 300 g/h
Water capacity 7.0 Liter

Extremely easy to operate for exceptionally refreshing room air

W2255A
Humidifier Air Washer

Removable water tank for easy refills

Discs with scoop ribs and a honeycomb structure for optimum humidification

Water quality maintenance with Ionic Silver Stick®

Thanks to the self-regulating evaporation principle and the use of unique humidifier discs, the air is humidified and also washed. Dust, pollen and dirt particles remain firmly stuck to the honeycomb-shaped disc structure. The Air Washer can be operated easily and conveniently, and runs at two modes for day-time operation and extremely quiet night-time operation. Thanks to the simultaneous air washing and humidification function, the device can be used all-year round and is especially suitable for allergy sufferers.

28 | 29

*Suitable for rooms up to 50 m² / 125 m³
Humidity output up to 300 g/h
Water capacity 7.0 Liter*

Humidity output up to 300 g/h
Water capacity 7.0 Liter

System

Humidifier

Ultrasonic

Humidifier Ultrasonic

Thanks to effective high-frequency technology, the water is converted into a micro-fine mist and given off to the indoor air by a fan. The integrated demineralisation cartridge provides water mist without limescale. The included Ionic Silver Stick® utilizes the antibacterial effects of silver and ensures optimal water quality. The low-noise appliances have a very high level of humidification, which can be individually regulated by an output control. As the room temperature can fall slightly as the mist evaporates, most BONECO Ultrasonic Humidifiers can be set to give off cool or warm humidification at the press of a button.

32|33

Features:

- High-performance and visible humidification
- Ideal humidity is attained in a very short time
- Low power consumption
- Demineralisation cartridge provides water mist without limescale (replace every 2 to 3 months)
- Corrosion-resistant membrane surface made of titanium
- We recommend CalcOff for regular cleaning (see Accessories)
- Water quality maintenance with Ionic Silver Stick® (replace every season)

U700
Humidifier Ultrasonic

Automatic shut-off when the water tank is removed

Fragrance container for use with essential oils

Corrosion-resistant membrane surface and water quality maintenance with Ionic Silver Stick®

The U700 is a Humidifier with high standards for cleanliness. Thanks to the innovative CLEANING MODE, the U700 cleans itself quickly and effectively. This highlight also features a one-of-a-kind design and performance. The U700 can release either a cool or warm mist, depending on your own preferences. The timer function, AUTO MODE and the fragrance container accommodate the individual needs of a modern lifestyle.

34|35

*Suitable for rooms up to 80 m²
Humidity output up to 600 g/h
Water capacity 9.0 Liter*

Art. no. 41225

BONECO

Control panel with a digital display showing '40' and various function buttons:

- Waves icon button
- Water level icon button
- Light icon button
- Power icon button
- Mode icon button
- Water level icon button
- Water level icon button

U650
Humidifier Ultrasonic

Art. no. 39606

Art. no. 39608

Cool or warm humidity can be produced by the push of a button. In winter warm mist prevents a drop in room temperature; in summer cool mist provides pleasant freshness. The hygrostat controls the relative humidity, which can be set as required. The water output can be set using the output control. The mist can be distributed in the room in two directions using the double jet nozzle. The dimmer of the digital display enables particularly convenient night-time operation. An empty indicator shows when it is time to add water.

36|37

Removable water tank for easy refills

Demineralisation cartridge for water mist without limescale

Corrosion-resistant membrane surface and water quality maintenance with Ionic Silver Stick®

Suitable for rooms up to 60 m² / 150 m³
Humidity output up to 550 g/h
Water capacity 5.5 Liter

BONECO

U7142
Humidifier Ultrasonic

Removable water tank for easy refills

Demineralisation cartridge for water mist without limescale

Corrosion-resistant membrane surface and water quality maintenance with Ionic Silver Stick®

The tower design lets this Ultrasonic Humidifier function very gracefully and finds space anywhere. All functions are controlled by the multifunctional digital display. The integrated hygrostat displays the current air humidity and allows manual regulation. If you require constant relative humidity adjusted to the room temperature, this is ensured by the AUTO MODE and SLEEP MODE. The length of operation can also be limited by the timer. The reminder indicator for cleaning and water filling ensure an optimal state of the device. Depending on your well-being, the humidifier offers the choice of warm or cool humidification that flows out from the double jet nozzle.

38|39

*Suitable for rooms up to 60 m² / 150 m³
Humidity output up to 550 g/h
Water capacity 7.5 Liter*

Art. no.. 39596

AUTO SLEEP

U7147 / U7145
Ultrasonic Humidifier

Removable water tank for easy refills

Demineralisation cartridge for water mist without limescale

Corrosion-resistant membrane surface and water quality maintenance with Ionic Silver Stick®

Suitable for rooms up to
60 m² / 150 m³
Humidity output up to 550 g/h
Water capacity 5.0 Liter

The compact Ultrasonic Humidifiers provide optimal humidification both in the office and at home. A hygrostat integrated in the device lets you set the desired humidity – the mist output therefore adjusts itself automatically. The humidity level can be specifically controlled at all times by means of a variable control. As soon as the water in the tank has been used up, an empty indicator comes on. The mist can be distributed in two directions using the double jet nozzle.

40 | 41

U7146
Travel Humidifier

Art. no. 39742

Our handy Travel Humidifier lets you enjoy good air quality not only at home or in the office, but also when out and about! The compact Humidifier fits snugly into any piece of luggage to provide you with well-humidified air – wherever you are. Just pop on a PET bottle, connect the appliance and enjoy healthy air in your room. The variable mist output control lets you set the humidity output just as you like. The handy travel companion switches off automatically when it runs out of water. Thanks to the 110–240V AC/DC adapter and interchangeable power plugs, the appliance can be used anywhere in the world.

48 | 49

Also available as a "Limited Swiss Edition" with a high-quality travel bag

Art. no. 39746

Attachment fits on any 0.5 Liter PET bottle

AC/DC adapter for worldwide use

Travel bag for storage and for cleaning the external surface

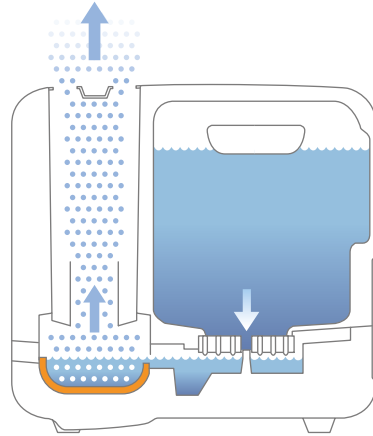

Humidity output up to 100 g/h
Water capacity 0.5 Liter PET bottle

System

Humidifier

Steamer

Humidifier Steamer

The Steam Humidifier system heats water to the boiling point and the generated steam helps to humidify the indoor air fast. By boiling the water, this system helps to eliminate bacteria in the steam and mineral-free humidification is guaranteed. Furthermore, energy is set free by the warm steam which slightly increases the room temperature, resulting in a more comfortable environment. Healthy humidification of the indoor air is guaranteed – anytime, anywhere.

50|51

Features:

- Germs and bacteria are eliminated
- Mineral-free steam
- Independent of water quality and mineral content
- Powerful humidification
- Steam humidifiers release warmth into the air of the room
- No filter mats and additives necessary
- Easy handling and cleaning
- We recommend CalcOff for regular cleaning (see Accessories)

S450
Humidifier Steamer

Removable water tank for easy refills

Child-friendly thanks to hand-warm, bacteria- and mineral-free steam

Container for the use of fragrances

An ideal device for families with children and everyone who wants to create a healthy indoor environment. Thanks to the hand-warm steam output, this Steam Humidifier is considered child-friendly. Heating the water eliminates bacteria and the minerals are retained in the unit. This guarantees a healthy humidification, regardless of the quality and mineral content of the water. Intelligent features, like AUTO- and SLEEP-MODE, ensure an ecological operation. Moreover, the integrated hygostat automatically regulates the output to ensure the desired relative humidity. Switch-on and switch-off times can be selected by the On- / Off-Timer. The practical Anti-Mineral-Pad binds the lime and the decalcification mode automatically cleans the device.

52|53

Suitable for rooms up to 60 m² / 150 m³
Humidity output up to 550 g/h
Water capacity 7.0 Liter

Art. no. 39616

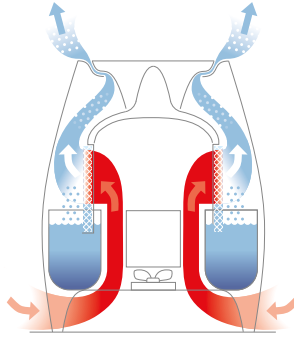

System

Humidifier

Evaporator

Ideal humidity is always available,
thanks to the self-regulating principle

Humidifier Evaporator

The evaporation system humidifies room air using an evaporator mat. A fan draws dry air through the moistened mat and recirculates properly humidified air back into the room. Due to its self-regulating principle it is suitable for operation year-round. The integrated Ionic Silver Stick® utilizes the antimicrobial property of silver to provide optimum water quality.

54|55

Features:

- Self-regulating system automatically provides optimum humidity (over-humidification is impossible)
- Year-round use
- Low power consumption
- We recommend CalcOff for regular cleaning (see Accessories)
- Water quality maintenance with Ionic Silver Stick® (replace every season)
- For optimum humidification, replace the filter mat every 2 to 3 months

E2441A
Humidifier Evaporator

Art. no. 39704

A harmonious combination of form and function. A blend of pure aesthetics and soothing indoor air. This Evaporator combines extraordinarily elegant design with unbelievably easy operation. It can be conveniently filled from the top. Humidification has never been so pleasant and easy. In addition to constant humidification, it is also possible to fill the room with pleasant fragrances. The appliance has an automatic shut-off feature. The LED empty indicator reminds you when to fill up with water.

56|57

reddot design award

Water capacity 3.8 Liter

BONECO
healthy air

A high-angle, wide shot of a mountain valley. In the background, a large, rugged mountain peak is covered in snow and partially shrouded in mist. The middle ground shows steep, green slopes with patches of forest and a winding road. The foreground is dominated by lush, green grassy hillsides. The sky is a clear, bright blue.

Healthy air –
a basic need

Accessories
for an optimal
indoor air

**A7417
CalcOff**

Art. no. 39805

- Cleaning and descaling agent with a composition especially created for humidifiers 60|61
- Easy to use (mix with 1L of hot water and soak in water base for 60 min.)
- Eco-friendly (powder form, to be dissolved in water before use)
- Sufficient for 3 applications – 3-pack
- Decalcify water base and tank every 2–3 weeks
- Use: for all humidifiers

**A7017
Ionic Silver Stick®**

Art. no. 39800

- One season of optimal water quality maintenance in the water base
- Works as soon as it comes into contact with water – even when the appliance is switched off
- Uses the anti-microbial effect of silver
- Replace every season
- Use: for all humidifier systems except S450, U7146

**A7254
Thermo-Hygrometer**

Art. no. 34969

- Showing indoor temperature and relative humidity
- Simple operation and compact size, with table stand
- The temperature is displayed either in Celsius or Fahrenheit
- Press the MAX/MIN button to show maximum or minimum temperature as well as humidity or minimum temperature, as well as humidity
- Use: monitoring ideal room climate (temperature to humidity)

A7531
Demineralisation cartridge

Art. no. 39804

- Provides water mist without limescale (if recommended replacement intervals are adhered to)
- Silver-coated housing protects against the growth of microbes on the cartridge surface
- Easy cartridge replacement or easy replacement of the granules every 2–3 months, or more frequently in areas with hard water
- Can be refilled with top-up granules A7533
- Use: for all ultrasonic humidifiers except S450, U7146

A7533
3 packs of refill granules

Art. no. 39803

- Easy replacement of the granules of demineralisation cartridge A7531
- For water mist without limescale (if recommended replacement intervals are adhered to)
- Enough for 3 granules changes
- Replace granules every 2–3 months, or more frequently in areas with hard water
- Use: for all ultrasonic humidifiers except S450, U7146

A451
Anti-Mineral-Pad

Art. no. 39806

- The Anti-Mineral-Pad decreases the calcification of the vaporizer basin
- The frequency of the necessary decalcification is reduced
- If the Anti-Mineral-Pad is completely calcified and hard throughout it needs to be replaced
- Depending on the degree of water hardness, the pad has to be replaced every 2–4 weeks
- Use: Humidifier Steamer S450

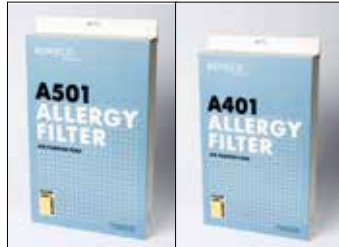

A7018
Evaporator mat

Art. no. 39807

- Made from eco-friendly paper for optimal humidity output
 - For optimal evaporation output replace mat every 2–3 months, or more frequently in areas with hard water
 - Easy mat replacement
 - Use together with Ionic Silver Stick® for optimal water quality maintenance
 - Use: Humidifier Evaporator E2441A
- 62|63

**A501 | A401
ALLERGY filter**

Art. no. 41170 | Art. no. 42519

- Reduces 99% of allergens on the surface of the filter
- Decreases the susceptibility to allergies of your family
- Filter combination: Pre-Filter + Allergy Filter + HEPA Filter + Active Carbon Filter
- Filters: dust, pollen, hair, allergens, viruses, microorganism, mite, bacteria, germs, insecticide, harmful gases, unpleasant odors
- Use: Air Purifiers P500, P400

**A502 | A402

A scenic mountain landscape. In the background, a large, rugged mountain peak is covered in snow and partially obscured by a cloudy sky. The middle ground shows a steep, grassy slope with patches of snow and rocky outcrops. In the foreground, a stream flows through the grass, reflecting the sky and the surrounding vegetation. The overall atmosphere is clean and natural.
